Sir:

In accordance with the duty of disclosure under 37 C.F.R. § 1.56, Applicant hereby notifies the U.S. Patent and Trademark Office of the documents which are listed on the attached PTO/SB/08 A & B (modified) form and/or listed herein and which the Examiner may deem material to patentability of the claims of the above-identified application.

One copy of each of the listed documents is submitted herewith, except for the following: U.S. patents and/or U.S. patent publications; and co-pending non-provisional U.S. applications filed after June 30, 2003.

The present Information Disclosure Statement is being filed no later than three months from the application's filing date, and therefore no Statement under 37 C.F.R. § 1.97(e) or fee under 37 C.F.R. § 1.17(p) is required.

The documents 1 - 6 below were cited in the International Search Report (ISR), as was noted in the Information Disclosure Statement filed July 21, 2006; the documents 1 - 5 below were also cited in the International Preliminary Report on Patentability (IPRP copy attached); and documents 3 and 7 below were cited in the Background Art section at pages 1 - 2 of the specification.

In compliance with the concise explanation requirement under 37 C.F.R. § 1.98(a)(3) for foreign language documents, Applicant submits the following:

1. The indication in the International Search Report of the degree of relevance found by the foreign patent office and the submission of an English language abstract for JP Hei-2-132174 each constitutes a concise statement of relevance of JP Hei-2-132174.
2. The indication in the International Search Report of the degree of relevance found by the foreign patent office and the submission of an English language abstract for JP Sho-60-35069 each constitutes a concise statement of relevance of JP Sho-60-35069.
3. The Background Art disclosure at page 1 of the present specification, the indication in the International Search Report of the degree of relevance found by the foreign patent office, and the submission of an English language abstract for JP Sho-59-71377 each constitutes a concise statement of relevance of JP Sho-59-71377. Furthermore, U.S. Patent 4,463,115 claims priority of JP Sho-59-71377.
4. The indication in the International Search Report of the degree of relevance found by the foreign patent office and the submission of an English language abstract for JP Sho-61-116327 each constitutes a concise statement of relevance of JP Sho-61-116327.

5. The indication in the International Search Report of the degree of relevance found by the foreign patent office, the submission of an English language abstract, and a machine translation for JP 2003-105303 each constitutes a concise statement of relevance of JP 2003-105303.

6. The indication in the International Search Report of the degree of relevance found by the foreign patent office, the submission of an English language abstract, and a partial machine translation for JP 2004-115780 each constitutes a concise statement of relevance of JP 2004-115780.

7. The Background Art disclosure at page 2 of the present specification, the indication in the International Search Report of the degree of relevance found by the foreign patent office, and the submission of an English language abstract for JP Hei-5-59267 each constitutes a concise statement of relevance of JP Hei-5-59267.

Applicant notes that JP 2004-115780 attached hereto is submitted with only a partial machine translation because no full English language machine translation was available; if the Examiner may need a further translation, please advise.

Applicant encloses herewith a copy of a copy of an English translation of the International Preliminary Report on Patentability (IPRP) citing such documents indicating the degree of relevance.

The submission of the listed documents is not intended as an admission that any such document constitutes prior art against the claims of the present application. Applicant does not waive any right to take any action that would be appropriate to antedate or otherwise remove any listed document as a competent reference against the claims of the present application.
